Englishtown, New Jersey 07726

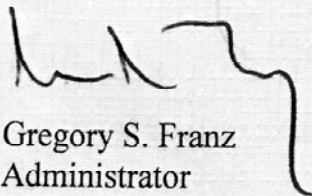

Re: May 26, 2016 Proposal

Dear Ms. Metler,

The Borough of Edgewater has had an opportunity to review your above referenced proposal. The important point the Borough would like to make is that the financial incentives that your organization, as well as others, have made to "buy out the USDA contract" is not the issue, the Borough does not see the geese control program as a "financial issue". The Borough respectively declines the APLNJ's offer to "buy out" the USDA contract.

The Borough of Edgewater certainly welcomes any and all efforts the APLNJ is willing to provide in regard to coordinating landscaping changes, grasses, shrubs, fencing, barriers, signage, and discouraging any feeding of any and all wildlife.

Sincerely,

Gregory S. Franz
Administrator
